afternoon. Night prices, 10c, 20c and

30c. Matinee prices, 10c and 20c. se27

## CONVENTION CONSIDERING CONSTITUTION.

Almost the Entire Day in Tobacco  
Workers' Convention Devoted  
to Amendments.

### SOCIAL SESSION AT MOZART

Last Night an Occasion Long to be  
Remembered by the Visiting  
Delegates.

Yesterday at the International Tobacco Workers' convention was taken up mainly with the matter of revising the constitution. Nearly the entire day was taken up with this matter and considerable work yet remains to be done. It is likely that the work of the convention cannot be completed this week and that it will extend over until Monday or Tuesday of next week.

State Labor Commissioner Barton was present at the morning session and delivered an address, holding the delegates attentively for three-quarters of an hour. He was liberally applauded at the close of his remarks. He also presented the women delegates with boxes of candy and the men with cigars. At the conclusion of his remarks he was tendered a vote of thanks.

Mr. Barton spoke of the good work accomplished by the organization. Organizations were a power that made its work felt, while individual effort accomplished nothing. The strength of the laboring classes lay in organization, and this fact was appreciated more every day. The trades and industries of this state were learning this fact more with each passing day and it was already known in the states of Ohio, Pennsylvania, Indiana and Illinois. He urged the importance of education among the unions. The people must be educated to the benefits derived from organization before they could be expected to become interested in it. He laid stress on the importance of regulating child labor. Children should be kept in school until they are capable of leaving the school room for the mills and the mines. The place for them up to the limit set by statute in many states, sixteen years, was certainly in the school room. It was well to see that in all the labor organizations this subject was given its proper weight.

This question was not only agitated to secure legislation but where the state failed to legislate on the subject the labor organizations passed such resolutions as to exclude many from the factories and keeping them in the school. In this state an effort would be made at the next meeting of the legislature to secure the passage of the law which was presented at the last session of the legislature. This bill changed the age at which children may be employed to fourteen years instead of twelve. While this was then defeated he had great hopes that its fate would be different when presented at the next session. He had strong hopes that it would become a law.

The committee on constitution is not yet ready to make its report, as they are still in session and have considerable work yet before them.

At the afternoon session the strike at Covington was endorsed, or rather endorsed, as the executive board endorsed their action four weeks ago. There are 150 men out and they claim their employers discriminated against them in many ways. The foreman of the concern, they say, abused some of the female employees and they refused to arbitrate the matter of wages with the international president.

Last evening all the delegates repaired to Mozart Park, where they were royally entertained by the local union. Bowling was the chief amusement and a sumptuous repast was discussed.

### In Clerk Robertson's Office.

Yesterday, in Clerk Robertson's office, the following were recorded:

Deed made November 15, 1895, by Orloff L. Zane to Ella M. Britt; consideration, \$800; transfers lot 6 in Belvidere addition.

Deed made June 7, 1900, by Mary E. Evans and Samuel Evans to Lewis Biery; consideration, \$220; transfers a piece of land in Richland district, on the Springer and Bushfield road.

Deed made September 26, 1900, by Joseph H. Wilson and wife to John Jenkins; consideration, \$1,550; transfers part of lot 28 in Churchill's addition.

A power of attorney from the Wheeling Roofing & Cornice Company to G. C. Jansen was recorded.

H. C. Richards was appointed administrator of W. M. Talbot.

as is shown by our students in the

Bookkeeping and Shorthand Depart-

ments. **WHEELING BUSINESS COLLEGE,**

Corner Main and Twelfth Street.

### UNSUCCESSFUL ATTEMPT

To Run the Riverside Plate Mill  
Thursday—Meeting at Bischoff's  
Hall Last Night, at which the Men  
Decided to Continue the Struggle.

The situation at the Riverside plate mill remains in statu quo. An effort was made to run the mill yesterday morning with new men, but it failed, on account of the inexperience of the men. Everything was in readiness for the start, but after a half turn had been completed, it was found necessary to stop.

Reports regarding the number of men who went to work yesterday are conflicting. The company only endeavored to run one mill. It is said that of the twenty-eight catchers employed at the mill, only one reported for duty. One rougher out of the twenty employed went to work.

It was stated that the company will have men come down from Pittsburgh to run the mill and that they have plenty of men ready and willing to work. However, since the unsuccessful attempt of yesterday morning, nothing has been done by the company and the mill is at present idle. It is said that only fifteen men reported for duty last night. The old men say they will stay away from the mill until the Amalgamated Association is recognized.

A prominent member of the association stated last night that Mr. Wiles, manager of the plate department, when in conference with their committee some time ago, said that it was not a question of wages but of recognition. The men, however, say they will not return to work until they grant the wages demanded by the Amalgamated wage scale and also until they recognize the association.

The men held a meeting at Bischoff's hall, on South Jacob street, last night, and three-fourths of the men who were at work yesterday were obligated into the association. They were in session two hours and many speeches were made, among them one by Al Summers, the local deputy of the Amalgamated Association. All were in the same strain, urging the men to stick it out to the bitter end. President William Howard presided at the meeting and it was very enthusiastic throughout. H. S. Hart, of McMechen, the local representative to the meeting of the Amalgamated Association at Indianapolis, was also present and acted as the secretary of the meeting. The men with one accord decided to stay out until the company agrees to pay the wages demanded by the scale and recognize them.

A member stated yesterday that the scale made an average difference in wages of five per cent. In cases of some of the workmen the difference would be very little and in others it would make a material increase. To the heaters the increase would be very small, but the advance to the day men would be greater, and that was where they were making their fight. The day men, he said, were not sufficiently recompensed for their work.

### NEW COMMUNITIES.

Prediction of Dr. Ogborne.

"There is no question in my mind but that whole communities who now suffer from the bad effects of coffee, would be revolutionized if they knew of the actual facts regarding the use of coffee and the help that could be obtained from the use of Postum Cereal Food Coffee. In my own case, coffee produced dizziness, heart palpitation, and sallowiness of complexion. When I abandoned the ordinary coffee and took up Postum, the difficulties were removed." Rev. W. N. Ogborne, Hammon, N. J.

Some people, when trying to break off the coffee habit, feel the lack of the stimulant so much that they mix half coffee and half Postum, then gradually reduce the amount of coffee until they drink Postum alone.

Most people can break off from coffee at once if they can have the Postum Food Coffee, for the taste of the two is so much alike, that many times the change is not noticed. The user invariably improves in health, and in a month's time, shows a marked change for the better.

**HIGH Art richness.**  
**KIRK'S, 1005 Main Street.**

IN Gregg Shorthand there is but one way of writing an outline, while in all position-writing systems there are many ways. At a position-writing system contest in Cincinnati in 1896, it was proved conclusively that some words could be written in 959 different ways. There is only one correct way of writing a word in Gregg shorthand, but exaggerated outlines may be published in many ways. We teach the correct way. Gregg students can acquire a speed of 125 words in four months. We have 153 students now in our different departments who can verify this statement. **ELLIOTT SCHOOL,**  
1318 Market street.

THE Wheeling Business College employs two able and experienced men and one assistant who devote their full time to preparing students in the common branches. Other schools devote but little time to this work, notwithstanding the fact that a stenographer or a bookkeeper is of but little value unless he has been carefully drilled in the use of English, in spelling, penmanship, arithmetic, capitalization, punctuation, etc. No other school approaches us in this respect.

**WHEELING Commandery No. 1,**  
U. R. Jr. O. U. A. M., Mozart Park,  
Saturday, September 29.

YOU can command better salaries after attending the day or night sessions of the Elliott School, No. 1318 Market street. All departments of night school in session four nights a week.

### ENTERED INTO REST.
